Phase II Roman Shades are in compliance with ANSI/WCMA A100.1-20102: American National Standard for Safety of Corded Window Covering Products

Face fabric hobbled onto the lining at regular 6" intervals creates cascading soft folds.

- > When using a pattern with a large repeat, the pattern will be interrupted at each pleat/fold.
- > 2" banded trim option available (along the edges or inset 2" from edges), see page 16-17
- > For 6 different lining options, see page 20
- > For lift options, see page 21

- > **When ordering for multiple windows in one room, choose and order the longest length to assure uniformity amongst all windows.**

SOFT FOLD/HOBBLED

soft fold/hobbled roman shade: uma/raffia texture, wheat
standard cord locks on back with standard lining

PLAIN CLASSIC PLEATED

plain classic pleated top down bottom up roman shades:
captiva/sandrift texture, bone

A structured,
contemporary look
which requires
minimal dressing.

- > Stay pockets on the back of the shade create pleats which stacks very efficiently and look great with most fabrics.
- > All fabrics look good with this style, but it should be noted that stay pockets do interrupt the prints.
- > 2" banded trim option available (along the edges or inset 2" from edges), see page 16-17
- > For 6 different lining options, see page 20
- > For lift options, see page 21

FLAT FOLD

flat fold roman shade: camelot/silkesse, walnut
standard cord locks on back with standard lining

A simple, elegant, tailored design with no horizontal seams.

- > This tailored style is an excellent choice for fabrics with large scale patterns that look best without interruption. When fully extended the entire pattern is displayed.
- > Small tack stitches used to attach the cord rings are visible on the face of the shade.
- > Plastic stays can be visible when backlit, but can be removed after "pleat memory" sets in.

example of plastic stays when backlit

- > When first installed this style should be pulled up fully and left in place several days to create "pleat memory".
- > 2" banded trim option available (along the edges or inset 2" from edges), see page 16-17
- > For 6 different lining options, see page 20
- > For lift options, see page 21

tuxedo pleat pole mounted valance:
chenille damask, peacock

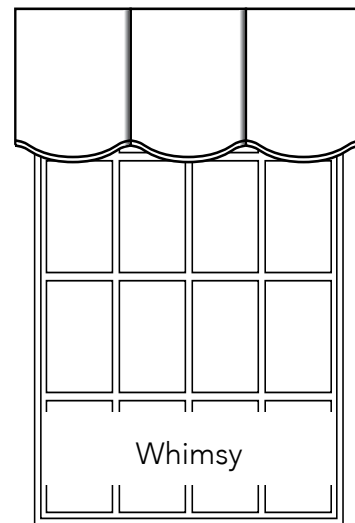

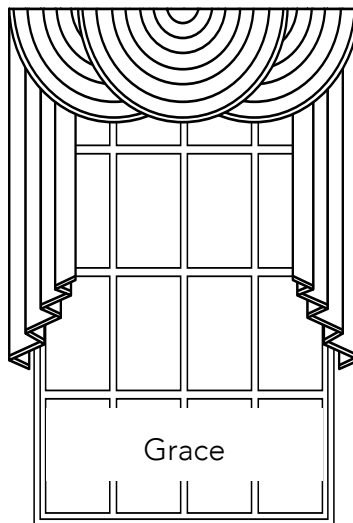

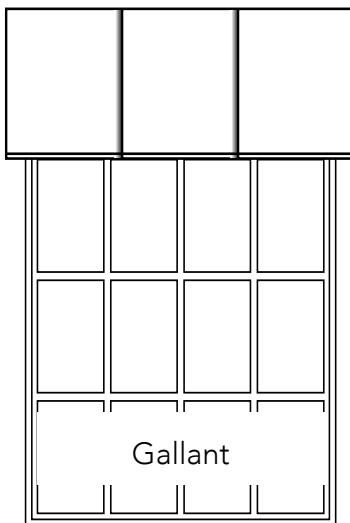

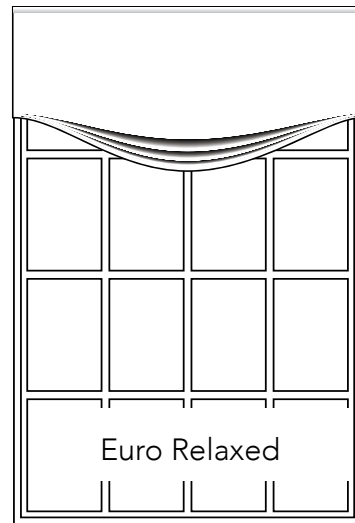

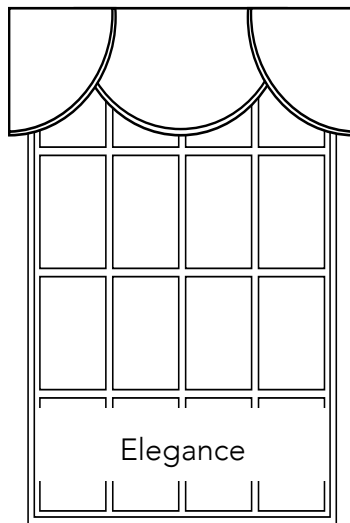

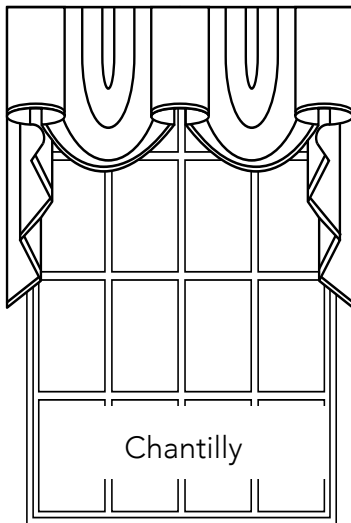

A window is dressed with a board-mounted valance featuring a repeating geometric pattern. Below the valance are three panels of drapery with a damask pattern, held by dark curtains. The scene is set in a dining room with a dark wood table, white chairs, and a vase of white lilies on the table. The text 'BOARD MOUNTED VALANCES' is overlaid in large white letters on the window area.

BOARD MOUNTED VALANCES

Soften and frame windows with these classic valance treatments. These pre-fabricated constructions are simple to install. Use over other treatments for a layered look.
